99 olds. 126k miles. Asking \$600 obo might consider a trade for a dirtbike, four wheeler, motorcycle, hand guns(guns) . Good Heat and ac. Not running. Cracked head. It ran perfect before that. It happened a month ago. Back windows do not roll down. Other than that everything works as it should. Sunroof. One dent in the hood. Not bad. If someone has the money to put in it it will be a great dependable car for someone for fairly cheap. I paid \$300 to get it diagnosed so I know for sure it's a cracked head. Clean title up to date tag. I just ran it low on water like an idiot and I don't have the money to fix it. Plus I have two more cars so I don't really need it. Text preferred. MAKE AN!!!
