

Lost Dog (Painted hills)

Location **Wyoming**
<https://www.genclassifieds.com/x-562090-z>

This is my dog Chestnut. He is missing he ran away with my parents dog on July 5, 2015 in painted hills at around 2. He lives on Stirrup Street but was with us visiting my parents. My parent's dog came back but he did not. He might me a little bigger than this picture since it was from Christmas. He is about mid calf tall and when sitting comes to about my knee and has a white speckled chest. He is wiener dog, part black lab and maybe part hound. He is very friendly but he may seem aggressive towards males because he is not use to being around them since it's just me and my daughter in the home, but he has never bitten somebody. He likes to chase deer and rabbits. Please if you see him or have him call me immediately. I have a two year old who is missing him like crazy and a house full of day care kids who also miss him. He is a much loved dog and definitely is missed. I have been worried sick and have spent all night last night looking for him.
