Hi there!

My name is Gadget. I am a tri-color beagle mix! I am twenty five pounds and as just about as big as I will get since I am ten months old. I love to play and fetch. I am up to date on all my shots (including rabies), preventive medicine, neutered and even micro-chipped! I am also potty trained to go outside if you watch for me to sit by the door.

My current humans rescued me but they have a little human and sometimes I get too excited around and scare him accidentally. I am perfect with the six year old so they say I need to be around only bigger kids. My current mommy is very sad they have to find me a new home. She loves me very much but I understand she has to look out for her little human too. They have not seen me around other dogs/cats so they have no idea how I act.

I will get to take my bed and " house" with me along with all my other goodies they have bought for me and of course my records. They are asking for a re-homing fee of \$100 to help cover the cost of me getting neutered, my new kennel, and other supplies/ toys that I have and to help ensure I go to a good home.

I would love to meet you and become your new best friend ! Will you be mine??
