Client is the owner of all rights to the logo design. I reserve the right to display it in public in my portfolio. Should you not wish for me to display the logo in any marketing material or portfolio, there'll be one more fee.

I work every day. You can get in touch via phone, email, text or social media at any time. I will get back to you asap.

So, how does it work?

I will gather all the information I can from you with regards to your project. I will give you a quote for the job. I will then send an invoice via paypal, and once that payment is made, I will be ready to get started on your business logo or any other graphic designs.
