The ranch style home built in 2005 is a very main floor modular home that is in move in condition. It sits under a covered breezeway with a large space on the breezeway with a large double door garage. Large eat in kitchen with great entertaining space and lots of potential. Master suite with large master bath with large tub and double sinks. This home is also fully landscaped with a sprinkler system front and back keeping the great yard in wonderful shape. Nothing needs done to this home but for you to move on in.
