Hello!

My name is Nicole. I am 23 years old and just recently moved back to Virginia from New Orleans. I was born in Virginia and was raised here. I graduated high school with an advanced diploma and then started working with young children right after that.

I worked at an in home day care with children ranging from 3 months-8 years old. I then moved on to private nanning and love it! I have nannied for families with multiple children or just one. I get very attached to the kids I watch and strive to be a role model for them as their parents are. I love arts and crafts and love activities outdoors or at libraries, I try my hardest to stay up to date on age appropriate opportunities the communities have to offer. I was a cheerleader growing up for 14 years and have a very bubbly personality and I am always smiling.

I would love the opportunity to speak more with anyone looking for childcare to discuss rates and expectations on the job :).
