For adoption through Kindness Matters Ferret Rescue -  
 Sassy and Willow are for adoption as a pair. They are one and two years old. Sassy is almost solid black and Willow is an albino. They are healthy, have had their distemper vaccinations, and been treated for ear mites, worms and fleas.

Willow loves plastic balls and stuffed toys that are almost bigger than her! Sassy also loves plastic balls and little rubber duckies. They both love to play in tubes, rice and starch peanuts. They play really well together.

Sassy will test her limits with a human and try to bite. She has only bitten me lightly once. I was told she bit a person who was unsure about handling her. So, these two should not go to a home with young children or first time ferret owners.

They are both alpha females and should not go to a home where there is another ferret, unless it's another alpha ferret. \$100 for the pair.

They do NOT come with a cage. The rescue sells cages cheap, as well as any ferret supplies you may need, including: food, hammocks, shampoo, sleep bags, flea products, crock dishes, water bottles, leashes, harnesses,.
