

(Accidental litter) Full blood Beagle puppies SOON

Location **Arkansas**
<https://www.genclassifieds.com/x-562624-z>

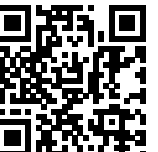

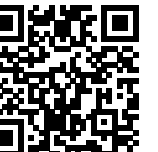

I AM NOT A BREEDER. My female got let out of her pin by one of the kids. The male I had just taken in not knowing my female was in heat, as soon as I realized it I keep them seperated. One of the kids let her out so I am not a breeder just someone trying to get good homes lined up for these soon to be here puppies.

REHOMING FEE : I was told by a police officer to always have a rehoming fee and to try and get a vet reference. I don't have a regular vet for my animals so I understand trying to get a vet reference can be hard. The fee isn't any thing other than SMALL.

Email me for all the info and for picture of parents. The mom is due within the next week or so. There will be a small rehoming fee. They will be flea and tick free and also dewormed but they will need there shots. I can meet in colcord, gentry, siloam, Decatur, and Bentonville.

TO BE CLEAR : They are full blood. They aren't inbred. The parents aren't registered/ papered. The rehoming few is small because it wasn't planned and they will need good homes. Vet reference isn't a must but if you have great.

To whom ever flagged my post the last time, go bother someone else because I'm not a breeder, only charging a fee to insure they go to good.
