Plus size modeling

Location **California**
https://www.genclassifieds.com/x-562919-z

Searching for plus sized girls who are interested in adult modeling.

this is for new models who want to give this a shot. This is a completely free, no charge session. It's strictly to help you out and help you expand your own personal portfolio and gain experience.
You will also have full copyrights over the images.
I myself and an amature photographer who is looking to gain experience in photography for the adult industry. I have an MBA in marketing as well, and I would love to help you gain a following and possibly form a career within modeling.

I offer a Photoshoot. That includes processing and edit/touch up the photos. And help you build/expand a modeling portfolio.

I will only accept a limited amount of responses from this post, that way I can focus on only a couple models at a time and help with the photoshoots and portfolios.

If you are interested in working within the adult industry, and you would like to give this a try, feel free to respond.
Please respond with basic info about yourself, what your goal as a model is, and a few photos as well.
Other than that, I'll hear from you soon! Have a great.
