Nice Modeling Amp for practice or small gigs. Compatible with all Line 6 FBV pedal boards. Only played a handful of times. Sell for \$100 new. Save \$50 by buying used. Excellent condition. No problem.

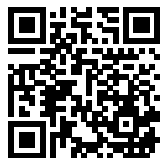

I also have a Line 6 FBV Express Mkii pedal board controller. It has 4 pedals for your presets and a volume/Wah pedal. You can also use it to tune your guitar. The "D" pedal doesn't activate all of time. Some times it takes several presses to active. May need some adjustment. Other pedals are fine. Retails for \$99 new. I will sell for \$50.

You can have both the amp and the pedal board for \$75 if you buy.
