

# 375 Need a Carpenter to cut MDF wood for Arcade Cabinet (Montgomery Village)

Location **Washington**  
<https://www.genclassifieds.com/x-563128-z>

Hello I am building an Arcade Cabinet and have no wood working tools or skill so I would like to pay someone to cut sheets of MDF wood to the specific measurements that I need, Use a Router to cut T Molding grooves, Predrill Screw holes and Paint the Cabinet Black. I know its not a huge gig but it can put something in your pockets (any money is good money) also If all goes well I will refer you. I know 3 or more people on Facebook who want to build a Cabinet also need wood cut. Please contact me if interested
