Tantra massage is a sensual full body massage and has been practised for over 5000 years, transforming our sexual energy into a force that is positive. Other areas of our lives are also affected in positive ways. All you need to do is close your eyes and let me warm your body.

Tantra massage will make you feel as if you are in a trance, where physical boundaries dissolve, time disappears, worries and problems no longer seem important, or are forgotten altogether. According to Tantric ideals, your entire body will be massaged, including particularly sensitive areas. Your abdomen, thighs, feet, toes, chest, nipples and fingers are then gently massaged using warm aromatic oil. No part of your body will escape my attention. Your energy flow is stimulated and senses awakened as your body's sensitivity gradually increases. During this massage you will be completely nurtured and pampered giving you with a feeling of comfort and sense of well-being.

I'm a 27 year old professional male and recent college baseball. If interested, please send a pic and times that work for you and I will do the same. Hope to hear from.
