# FOUND BLACK CAT (Livonia)

Location   **Michigan**
https://www.genclassifieds.com/x-563288-z

  We found a black cat at the intersection of Plymouth and Farmington. The cat was alive but barely well. It is a black cat with a white patch of fur on its chest. It looks like it has been lost for a while and has come down with flees and has not eaten in a while. It was recently driven to the Westland Humane Society to treat its wounds. If this is your cat please call

or drive to the Westland Humane Society.
