Have extras website design and seo leads that come in on a regular basis.

However the leads that are less than \$1000 jobs will not work for us as our services are much higher.

PLEASE READ - These leads come from our personal lead generation in the group that im with leads come from different sources but mainly opt ins that we have contacted that need the work done as we do full scale plans so we don't do nickle and dime jobs.

Leads come with - Name - email or phone number sometimes both - description and budget, location if we have that detailed info.

Will give you short intro script to make everything simple when contacting the client!

Willing to sell off the website design and seo leads!

5 leads for - \$125
10 leads for - \$175

Will make sure leads come with name, contact, what they need done, their info!

Leads are easy to close if you know what your doing. Stupid people who want to trade or play games just go away!
