

BMW Maintenance and Repair

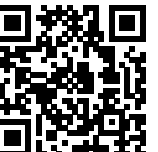

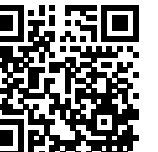

Location **New Hampshire**
<https://www.genclassifieds.com/x-564002-z>

If you want to have your BMW maintained and repaired by an honest professional that has over 20 years experience on BMW's with factory training, then you found the right person. I have several years of dealer experience and have won several awards for my skills and workmanship. I have developed relationships with customers all over the MA & NH area. I am highly proficient in electrical diagnostics and software updates including check engine lights, ABS, and airbag systems. If your vehicle is still under warranty or has a Certified Protection plan I can inspect it during your maintenance visits that are not covered on the warranty and advise you on repairs needed as the dealership is prohibited from upselling warranty work. Also, if the dealer gives you an estimate, I will gladly do the same job using the same OEM parts at a fraction of the cost. Please do not hesitate to email any questions about your vehicle and I will answer them to the best of my knowledge. If you are in the market for a pre-owned vehicle and want it inspected by an unbiased source then please email me to set up a pre-purchase inspection. That alone can save you hundreds of dollars on your purchase or prevent buying a vehicle that has not been maintained or was involved in an accident that was covered up. I am minutes from the dealership. References are available upon request. In the meantime, please enjoy the "Ultimate Driving Machine"
