I have a 2004 Chevy pickup and need a class 3 capable hitch installed. The truck is custom and has no rear bumper. U haul cannot install a standard class 3 due to it not having a rear bumper and the custom exhaust is also in the way. They suggested I have one custom made but I cannot find anyone who wants to do it. If you have the skills and want the job please text me your location and a ball park figure. I can of course bring the truck to you. Thanks
