Here at S&K Marine Electric, our goal with every client we serve is to provide total customer satisfaction through the honest, high quality work we provide in a manner that's most convenient for our client. We are a totally mobile service which means added convenience on your part because you don't have to travel, towing your boat on the trailer, which we know takes quite a bit of time and effort, in order to avail our services.

We will be the ones coming to the place where you store your boat, bringing all necessary tools, equipment and replacement parts (if needed), and providing top-notch marine electronic and electrical services right at the comfort of your place, at a schedule that's most convenient to you.

Next time you need expert assistance with all your boat's electronic equipment or electrical systems, please call us at 64217-z. If you are a boat owner, a professional, or a business owner, we will be glad to help you before you decide on which company to buy from. Call and we will be more than happy to assist you.
