Hello, my name is Tom Martin, owner of Green Mountain Capital Resources Ilc
 Website(www.greenmountaincapitalresources.com)

I reside in Vermont the Green Mountain State, the lenders I represent most of them private are licensed in all 50 states.
 If you need capital for any reason and you accept credit cards, you can borrow against the future of your credit card sales.

Rule of thumb you can borrow up to 15% of your yearly gross sales, some businesses do qualify for more. If your looking to have capital in the bank for a safety net, this may be the perfect loan for you. Especially if you don't have the best credit.

Requirements;

- a) Must be in business for a minimum of 6 months
- b) Must have a minimum of \$10,000 dollars per month in gross sales
- c) No open bankruptcies

If you qualify, please call. For quick funding in as little as 72 hours, I will need;

1) Six Months Current Bank Statements

2) Six Months Processing statements

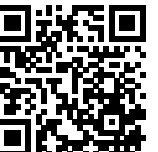

3) Application

4) I will process the documents your approval

Thank you for reading

Tom Martin
