

# Looking for Body Painters (DowntownMidTown)

Location **Louisiana**  
<https://www.genclassifieds.com/x-564287-z>

I am an experienced male model looking to collaborate with emerging body painters and photographers on a TF project to body paint me. I have a perfect space in Midtown to do the work and some interesting concepts that I would like to be painted as. However, I am open to any concept at all. I also have some paint, brushes, and accessories already and would be able to pay for more supplies if needed.

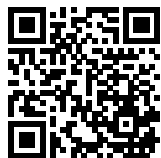

Attached are some photos of recent body-paint project I have modeled in.

If you are interested, please email me with some sample of your work and other information about yourself. I would like to meet with prospective artists for coffee or lunch to make sure we are comfortable with each other and the concept before moving forward.

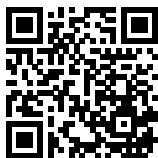

Thank you,  
 Christopher
