You mean Florida where Gore was ahead by a million votes. then they came up with the Hanging Chads, so Jeb Bush declared it a miss vote, and sent Florida votes to the Supreme Court which gave Bush the win. and of course the Nazi's in the Supreme Court handed Bush an Election he had lost, and funny thing the majority of them were Republicans, yes they can't win An Election on their record. Because they haven 't done 1 thing for the Average American, GOP stands for Greed Over People, see they only work for the Rich, shit on the rest of.
