I've sold off my little farm and this sweet rig is the last piece. It's a super solid tractor and everything works on it. No issues at all, I just don't have a use for it.

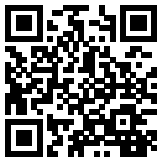

1977 John Deere 4430
9325 hours
Power Shift
3 scv
Quick Hitch
18.4x38 rear tires
11.00-16 front tires
9 bolt dual hubs
9 bolt duals (no tires)
2006 KD Loader
7' bucket and grapple
4 tine big square bale spear

This tractor runs like a top. I've never had any issues with it. It has had the hydraulic system, 3pt, and A/C gone through in the past two years. It had the fuel system gone through within the last 4 years. The tires are excellent. Lights work, radio works, no mechanical.
