I've sold off my little farm and this sweet rig is the last piece. It's a super solid tractor and everything works on it. No issues at all, I just don't have a use for it.

- 1977 John Deere 4430
- 9325 hours
- Power Shift
- 3 scv
- Quick Hitch
- 18.4x38 rear tires
- 11.00-16 front tires
- 9 bolt dual hubs
- 9 bolt duals (no tires)
- 2006 KD Loader
- 7' bucket and grapple
- 4 tine big square bale spear

This tractor runs like a top. I've never had any issues with it. It has had the hydraulic system, 3pt, and A/C gone through in the past two years. It had the fuel system gone through within the last 4 years. The tires are excellent. Lights work, radio works, no mechanical.
