(((((((IF YOU SEE THIS AD IT IS STILL FOR SALE)))))))))))I WILL NOT REPLY TO EMAIL OR TEXT YOU HAVE TO CALL ME IF YOU ARE INTERESTED SORRY TO MUCH SPAMMERS OUT THEIR

I am selling this for my brother in Law he had put some time and money into this car then the engine spun a main bearing so he took it out and never got back to it after starting a family. Now he could use the money instead of fixing it. It has all new interior and almost new tires and rims after market hood and fender and lights its a automatic and the motor is tore down and is still setting inside the car clean so either rebuild that one or just get one from a salvage yard and you will have a pretty nice street toy. also it will need a new windshield at some point has a bad spot on the passenger side about the size of a 50 cent piece
