For your consideration is this large 3 piece Holm Feed Store sign made in Des Moines, IA. It is painted tin, comes in 3 pieces with each section being 26" high and 48" long. On the corner of each section is "corn states des moines". Nice older piece in fair to good condition. If interested you can call Cliff at to arrange a viewing of this sign and numerous other old, collectibles Cliff has for sale. We have to start somewhere so I'm asking \$300 but will consider all serious offers.

The large mirror behind the sign is also for sale if anyone is interested, asking \$1500 for.
