Looking to pay someone a flat rate for an hour or two to assess and make recommendations about the landscape around my house. A verbal conversation is acceptable. No Written Report required, but not unwelcome either.

I have about a 1 acre lawn/area surrounding our house with mature landscaping that has been used in various capacities in the past.

I would like someone who espouses working with nature (as vs forcing a green grass lawn)

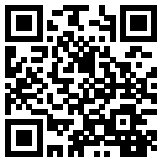

Aspects relevant to this assignment include a knowledge/background in:

- lawn management (not just grass management)
- selective or specialty gardens
- wildlife management
- pest management
- forest management
- walking trails/paths
- hardscaped areas
- natural and man-made retaining walls

Please RSVP via email with your qualifications/background and proposed rate. Thanks.
