Hello I am finding a new home for my one year old pit mix mika she is an amazing house broken puppy. She has had all her shots and is up to date on al when I got her from the pound. She is also fixed. I have become very busy with my autistic son and have not been home as much as I would like she needs more time with people and to be able to play and not be locked away while I'm at work and doxtors. She is great with children and very loving and caring she listens well and is house broken. Please give this baby a new home since I no longer can give her what she.
