Polly Moore I was 20 at the time we met in Fargo, ND. I don't know if you remember me. We dated for not very long. You were 42 at the time going through a divorce. And I remember I parted ways because I felt bad that you were buying nice things for me. So I parted ways. Truth is, I've trying to find you for four years. And I've regretted making that decision ever since. If you don't remember think of the day we met at the hospital on the day at prairie saint johns. I have looked for you on Facebook and I don't know if you deleted your account. I am hoping that you or someone that knows you may run into this and relay this to you. I am hoping to get back in touch and make up for lost time. I hope all is well. Feel free to contact me on my cell. I've missed you very much. Riding in your white Jeep Cherokee with the music blaring lol. Going cross town down main street. The good times we had. I remember you had a bachelor's in architecture. If you get this, I hope to hear from ya soon. My name is Steven stack if you are able to remember me. I used to be homeless in the Fargo area when we met. I hope someone may get this to you soon. Be safe and stay well. God bless. 507 837 nine four two
