I have a proven Holland Lop female and her baby she is A tannish brown color and the baby is what you would call Harlequin black and orange striped. I could also throw in a hutch for them I am asking 60 for both rabbits and or a hundred for rabbits and such they will come with food hey nesting box and anything else that I have for them both are very sweet and can be litter box trained. these are the floppy eared rabbits they are one of the smallest breeds and their adult size is 3 pounds.
