I have a few parts from a 1968 C-10 pick up that I'm offering up. Here is what I have:

Set of original 15" steel wheels with GMC Chrome Caps and Rings. Caps and rings are in good condition, wheels need bead blasted and refinished, but are totally usable

Two sets of 350 SBC truck long headers. One set is older, but works fine, and the other has one side that is brand new, never mounted, and the other side mounted for 1 week. Hardware and collector flanges are with newer set. Black finish.

Dana 44 rear axle, off of the C10. Has most if not all parts, however needs new ring and pinion. Awesome axle, just don't need it.

Asking \$275 for everything, OBO. If you only want one item, I ask that you take everything and either sell or trash what you don't want. I just want everything gone. Text or email is the best way to reach.
