I run a small business and I need a sharp, detail oriented researcher/data entry expert to help me with a short term project. The project is finding email addresses and entering them into a spreadsheet. I will give you all the info you need and will give you detailed easy-to-follow instructions.

If this job goes well we will have more projects for you.

This shouldn't take more than 10-12 hours of work. Need it done before Wednesday 7/15. Email if!
