I am an experienced photographer and I want to do some creative art with some new fresh faces. I can teach you things and give you shots as we build your portfolio or maybe career if that is an interest of yours.

Send a head picture and full body picture (it can be selfies or cell footage of course since I'm looking for people that may not have taken a lot of pictures) and a contact number so we can get started ASAP.

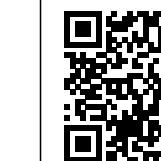

Any race or age. Let me know what your future plan or goal may.
