Do you need simple help with your home computer, wireless network, printers, scanners, fax machines, televisions, or most other electronic devices?

Please contact me. I will let you know if it's an issue that I feel like I can solve for you, and then come out to your home to work on the issue.

The phone call will be free, the trip out to your home is \$10. The first hour I spend at your home working on the issue will be \$15, and \$25 per hour for any hour after the first hour only if I am able to fix the issue.

I will not work with any private data or sensitive information, but I can solve most issues and help you figure out what exactly the best solution will be for your needs much cheaper than anyone else.

I look forward to hearing from.
