

2003 Mini Cooper S (5800 USD)

Location **Vermont**
<https://www.genclassifieds.com/x-565451-z>

Im selling my 2003 Mini Cooper S. Supercharged 1.6ltr motor. 6 speed manual gear box. Car has 94xxx miles on it. Runs and drives perfect. No check Engine lights or anything In that order. This Mini Cooper is fully loaded with power windows, locks, moon and sun roof, leather interior, Ice cold a/c, power steering. Dash tells you your gas mileage, the range you have left to a tank, your average speed, and what the temp is outside. Car has brand new ball joints and tie rods, the clutch has about 2000 miles on it, alone with the master cylinder and new cables. Clutch is perfect in this car and it shifts beautifully. E brake works great. It has a Magnaflow header back exhaust system. Sounds great, it also has a upgraded top mount intercooler, a cold air intake with the box, and a 17% reduction pully and yes. It does have a tune, automaster has tuned the car adjusting timing fuel and boost so the engine is very safe! This is a great daily driver or weekend car. Seats 4 people somewhat comfortably! It's a MINI, not much room :) i love the car to pieces but it's fine for a new home. I'm looking to get into a brand new motorcycle so a nice down payment would be perfect!

All the black accents are plasti dip, so if you choose to have some chrome back, simple as peeling it off! Also have the stock mini wheels.

Only thing the car does need is tires. The passenger side front has a busted belt in it so it's not the safest. I drive it everyday fine but I highly recommend changing that one tire or all 4. They are very good snow tires.

Asking \$5,800.00 but make an offer and she can be yours :)
