Experienced photographer/videographer needs models to help perfect new skill set.

I'm privately venturing into amateur adult photos and videos. Still looking for the right model. Normal looks, few or no tats, fit to average, unlikely adult star.

If you have a fantasy about being an adult model, here is a chance to play it out and get paid decent money. Or if you want to be an adult star, here is your chance to start. As these will be for my private collection only, and not for web use, or sale, discretion is assured. If later you want to get into the industry, I know people. perhaps you can go that route. For now I am practicing my camera techniques, and you can practice your adult modeling.

this is for adult industry type photos and or video. I shoot with style and class, but this isn't tease play.

if you are not sure, don't waste my time or yours.

Of special interest: Girl next door look. Pregnant women and or lactating moms, collage girls.

You must be height weight proportionate. fit, curvy, or thin, attractive, "over 18" and ready to explore your wild side. prefer few or no tattoos at the moment.

Serious only. send brief email telling me a little about you, why you want to do this, and photos so I can see what I'm dealing with. If you do not follow direction now, I'll assume you can not later, or I'll think you are spam or.
