

# Quickbooks for business amp data entry

Location **Virginia**  
<https://www.genclassifieds.com/x-565743-z>

We need someone very experienced with Quickbooks for business and its setup to include payroll. In addition, the right person must possess data entry skills. There's a ton of receipts to categorize and input!

If this sounds like a job for you please give me a call ASAP to discuss your experience level.

Ideally the right person would also possess an accounting background to include P&L, tax law, and tax filing. That's not a must, but someone possessing that knowledge would be used long term.

We need someone now! Start Immediately!!
