Hi my name is John and I am looking for extra jobs to do during the day and on weekends. I already have weekly customers that I do lawn and pool care for. I have really good references from my weekly customers.Let me tell you a little myself. I'm 42 years old and I have worked for a lot of people doing different jobs. I worked for a major custom home builder as a labor and helper for 3 years. I worked for a carpenter for 2 years remodeling and framing houses. I worked for a swimming pool service company for 3 years. I have experience in painting,lawn care, mulching, planting,leaf blowing and yard clean up. I can clean houses and hard wood floors. I have 1 year experience cleaning high dollar homes. I also clean windows powerwash homes and clean windows and cars. I am very friendly,clean cut,very good self character and I have good customer service skills. Please send me a text if you are looking for help for short term or long term projects and weekly lawn care,swimming pool services and home cleaning. I also have worked with contractors that need help for short term projects. Thank you for reading my post and I look forward to working with you. Please send me a text if you are interested in my services.
