There both males. Australian Sheppard, lab mix. \$1 rehoming fee.. They both need room to run. There both past chewing things up and listen some what. Great around big and little kids. We just don't have the time for them which they deserve. Aries is smart, to smart for his own good. Loves the water. Jumps right in. Curious about everything. Thor, all though quite is kind of just a big ol baby likes to lay around soak up the sun. Likes the water but is unsure still. both will stand there ground when back onto a corner of someone comes to the yard. Niether have never bitten any one. Just do alot of barking. Other wise quite. Text and be serious we will be screening potential takers. Thank.
