

2 yr old female Rottweiler

Location **Tennessee**
<https://www.genclassifieds.com/x-565805-z>

I have a 2 yr old female Rottweiler that needs to be regimes. She is not spayed due to not having the money to spay, never been bred but has had her heat since I rescued her in May 2015. She's house broke, good with older children and younger. Very protective of her family. I don't have the time and love to give her. I will do a house check/ reference check before handing her over . I am charging a rehoming fee of 200.00 to ensure she is in a good home. Need her gone before tomorrow or Tuesday. When I got her the guy told me she got her rabies shot but never found the tag. Vets can run tests to see if she had her rabies shot. She never bit anyone and plays rough but knows when to be.
