

## Small Crates built for Taxidermy Products (Dallas)

Location

Texas

<https://www.genclassifieds.com/x-565854-z>

I need someone who can build small wooden crates to ship my taxidermy forms. I have a good idea of how they should be but you may have something better. You must be willing to start immediately and you must have your own place to build, your own tools, etc. I will buy the materials. The price is negotiable but they are very small crates so quick builds. This is an ongoing project so if you have a full time job this isn't for you. Deer, fish, longhorn skulls, etc. will be shipped internationally so they must be well constructed.

Text

And just to eliminate all confusion on pricing each crate should take less than 20 mins so \$10 - \$15 per crate. Again, its not just one crate but rather an ongoing with many crates per day. The price isnt set in stone but in order for this to work I need someone who is a long term, high volume thinker. Pays cash daily for the first week just so we build confidence in each other. From there we will need to go weekly. We are fair and this is an incredible opportunity.
