The "stealership" and other repair facilities will tell you that the motor is caput or that the repair is going to cost you hundreds of dollars! The motor is rarely to blame and what they don't tell you is that they new part is designed to fail in 24 months! WHAT????? Good news! We can repair that power window regulator for a fraction of what other repair facilities charge. WANT MORE? We'll give you a 1yr warranty on parts AND labor! STILL WANT MORE? Okay fine.
