I am re-homing my 7 year old Senegal parrot. It is not sexed but pretty sure its a boy. He doesn't get as much time out of his cage as he use to and I feel guilty for that. Looking for a small re-homing fee. Comes with cage, stand, toys, food, travel cage, and a flight suite. Like some birds he will take some time to get use to someone new. He didn't really care for anyone but me so he will take some working with to be able to pick him up but with patience it can be done. Also if he is a only bird he will squawk from time to time.
