ABOUT T&T

T&T is on a mission to become the world's largest marketplace for t-shirts and tank tops. To accomplish this, we're enlisting the help of industry-leading fashion experts, trendsetters and the world's top designers and illustrators. We aspire to offer the biggest and best selection of t-shirts and tank tops available anywhere - online or off. Only the #hottest, #freshest, #dopest most #badass designs are being accepted as all submissions are carefully curated by our team. So, leave the ugly promotional t-shirt designs for your local print shops and send us your most #kickass designs!

For artists, T&T eliminates all the work and costs associated with developing, maintaining and hosting an ecommerce website, online marketing, social networking, manufacturing, printing, selling, packaging and shipping. Plus, unlike similar sites there are no contests to promote, conditions to be met or minimum pre-orders sold before going to print. Our vision is simple, to create a place for artists and designers to earn additional income and increase exposure to their work -- not make more work for them resulting in less time to create. By building a gorgeous, online store of significance and a community of exceptional talent we're confident T&T will naturally become the go-to place for artists to proudly and confidently share links to their work with their friends, family, fans and followers but by no means is it required.
