High-concept art photographer expanding nude portfolio. Seeking right fit for the new portfolio both in image and attitude. Ideally want to work with a fellow artist and/or athletes to collaborate on the images. Not looking for a "robot model" who simply wants to be told what to do.

Please reply with sample pictures (the more the better, but they don't have to be fancy) and description of yourself, including age, height, weight, bust and waist size.

Multiple photo sessions planned throughout the summer (some art nude, some fashion) so if you're a good match we'll work together often and have a lot of!
