

# Video editing help needed TONIGHT (Sun 712) (mission district)

Location **California**  
<https://www.genclassifieds.com/x-566185-z>

Hi - I'm an idiot and started learning video editing today for a project I need to get done tonight.

If you have the time, I have the \$\$, and the source video files.

I need to make a 2 minute video for work, have the basic blocking and scripting set up. I just need someone to help with some video transitions, and ideally, some pan and zoom, as well as some text / title insertions.

Ideally, you can help explain why I'm having such a hard time getting Final Cut Pro (you suck, Apple!) to do what I want. Actually, ideally, you're available, good natured, and can help me TONIGHT!
