Up-and-coming modern-folk band National Park Radio (based in Northern Arkansas) has made quite a name for themselves over the past 2-years, and is currently on the brink of a new phase in their career. After releasing a self-recorded EP two years ago, they have been gaining fans from all over the country, have toured to the West Coast twice, and have been featured on AETN's music program "On The Front Row".

The unique sound and songwriting got the attention of Edgewater Studios ( <http://www.edgewater-studios.com> ) in Sugar Land, Texas, who teamed up with National Park Radio to produce and record their debut album, which is due to be released this summer with great anticipation for commercial success.

They have signed with management, and are serious about seeing this project succeed. So please don't miss out on this opportunity.
