I'm a professional photographer looking for an attractive female (18 +) interested in shooting some Playboy and Penthouse type of pictures. I'm also doing some test shooting for a new adult site. You must be comfortable shooting all types of nudes and confident in yourself.

If you're the girl next door or been told you're pretty then this is the ad for you. If you've never shot before that's not a problem, I make it fun and easy. I'm good at posing and helping you with your looks. I can help you get started in the business.

Please give a description of yourself and a picture would help. If you do send a picture clothed is fine and you must be 18. Feel free to ask any questions you may have.

On the flip side if perhaps you want the pictures for yourself or a partner, and don't want them for the world to see, nothing will be posted on social media or anywhere without your approval.

I promise you'll receive some professional pictures and have fun. So what's holding you back let's set something up today !
