

ES300 Lexus 2001 Engine and Transmission (150072704 USD)

Location **Arkansas**
<https://www.genclassifieds.com/x-566592-z>

The car was involved in an accident. Needs a new Front Clip. Drove it home after wreck. I don't have time nor desire to fix it. If you are a rebuilder, and wanted to make an offer on fixing it for me I will consider.

It's black and has a sunroof. 120000 miles. Tires are brandnew.

If you need an engine or trans you have to take possession of the whole car and haul it off.

It's located in Fayetteville, not far from the UofA. It can be seen in fayetteville by appointment.

We have the original clean title which can be transferred to buyer. I imagine it would need to be titled as salvage. It's a solid car just don't need it at this point.
