This is a very nice example of what is well on its way to becoming a classic. It gets attention everywhere I take it! It runs and drives well and has plenty of power for towing too. The A/C and heater work as does the 4wd. The interior is in great shape for its age and presents well. The body isn't perfect, but it isn't that bad either. It looks great and not afraid to use it as a real work truck either! It has a 4" suspension lift and 33" tire and wheel package. It also has straight 3" exhaust.

New parts recently installed include:

- Front brakes and rotors
- Tie rod ends
- All steering linkages
- Steering gear box
- Starter
- Cam position sensor
- Glow plugs
- All return fuel lines
- Fuel filter

I have an ATI turbo kit that would go with it at the asking price. Otherwise, we can work something out.

I'm asking \$7,250, but I'm open to reasonable offers. I would really like to trade for a lifted 4wd Suburban with a 3rd row seat and a 3rd row seat. I can also trade for a 3rd row seat and a 3rd row seat...

...and I can also trade for a 3rd row seat and a 3rd row seat...
