

Lab mix puppies SCAM PLEASE BE AWARE

Location

Maryland
<https://www.genclassifieds.com/x-566622-z>

Some lady is going around saying she's a rescue person at "achanceatlife" She is selling sick puppies with the pargo virus. I bought one from her and she died 2 days later. She will make you fill out this paper saying how the puppy is perfectly healthy as the day the puppy is given away and obviously the pup is not. If you ever have to sign something please take a picture of it (I wish I did) This lady is lying. They are sick with a virus and I got stuck with a very high pet bill and I don't want anyone going through the same thing I just did. Please get this around. She's scamming people. Spread the word please! I attached a picture of.
