Hello!

I am a freelance graphic designer with 10+ years of experience. Proficient in basic photo manipulation and extensively experienced in layered vectors.

Services that I confidently offer are:

- Logo design
- Business card & stationery design
- Basic web site design on WordPress platform
- Labels
- Brochures/booklets/flyers
- Books & magazines (cover design and basic prepress)

What my clients always get:

- Online communication and creative work - I am available virtually always, listen to your desires, offer suggestions and ideas as the work is being done
- Consistency - if I promise something will be done in two hours, it will be done in an hour and a half
- Several visual suggestions and endless revisions until the design is just the way you like it
- Final files in all major picture formats (jpeg, bmp, png ... )
- final files in lossless, scalable vector formats (cdr, pdf, eps, ai) so that you can print it on both pens and

business cards as well as on jumbo posters

Backup, as you have it, the files on the hard drive, I always keep a copy of the work I do. I am swift and with style!

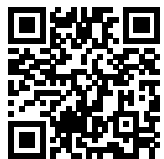

Please check my portfolio website for some of my work:
